

DCHV LP

HV-HV reversible Buck or Boost Converter
 Voltage up to 950V_{DC}, current 960A
 Power 500kW at 500V Side A
 Multi inputs / outputs capability
 Cutting-edge power density

KEY FEATURES

- Built-in magnetics, inductors and transformers included
- Input and output range : 0 to 950V_{DC}
- Non-overlapping topology : $V_{\text{SideB}} > V_{\text{sideA}}$
- Bi-directional current operation possible
- Max current : 960A
- Current and voltage control
- CAN remote communication and monitoring
- Weight: < 20kg
- Can be paralleled for increased power
- Buck-boost option available for overlapping input-output voltage
- Up to 16 ports possible for multiple inputs-outputs configurations
- Connectors and Busbars options for electrical interface

TECHNICAL SPECIFICATION

Power

Max number of ports	16 side A, 16 side B
Side A and side B voltage range	0V to 950V _{DC}
Voltage settings possibilities	Max boost ratio : $V_B = 20 \times V_A$ max Bypass mode : $V_A = V_B$ possible Short-circuit mode : $V_A = 0V$
Voltage accuracy	+/- 1% of full scale
Current capability	+/-60A per channel, +/-960A total
Current accuracy	<3% of full scale
Efficiency	98.9% at nominal current with 2:1 voltage conversion ratio
Short circuit protection	Current regulation at setpoint value down to 0V (in case the side A is regulated in voltage mode)
X Capacitance	200μF per side A & B No inrush current limitation
Y Capacitance	2μF
Safety discharge time	<5sec to reach 60V

Control

Auxiliary supply	9V _{DC} - 60V _{DC} <100μA disable mode current consumption <80W in Power ON mode
Enable function	ON/OFF signal. Tie to ground for start-up. Internal pull up
Inrush current limitation	Not included
Environment	
Environmental protection	IP67
Altitude	Up to 4000m
Max cooling temperature	65°C outlet
Operating temperature range	From -40°C to 70°C ambiant
Storage temperature range	From -40°C to 100°C
Dielectric withstand	
HV - case isolation	1950 V _{DC} Basic isolation
HV - LV isolation	2500 V _{DC} Reinforced isolation

CAN Interface

Bus speed	125Kbps to 1Mbps (set by CAN)
	Side A Current limit +/- 960A, 2A resolution
	Side A Voltage set point 0V to 950V, 1V resolution
Controls	Side B Current limit +/- 960A, 2A resolution
	Side B Voltage set point 0V to 950V, 1V resolution
	Power ON/OFF
	Discharge request
	DC/DC Status
	Voltages and currents
Monitoring	Internal auxiliary power supplies voltage
	Internal temperatures
	Internal protections
Identification	Software & Hardware revision
Software Update	CAN Bootloader
Liquid cooling	
Pressure loss	<300mBar TBC
Maximum recommended operating pressure	1.3bar TBC
Maximum testing pressure	2.6 bar TBC
Hydraulic connector	NORMAQUICK PS3 VDA (Mounted on NORMAQUICK PS3 NW 16-xx)
Mechanical	
Dimensions	520 x 355 x 82mm + connectors
Weight	<20 Kg
Interface	M8 fixations on each sides
Housing	Aluminum with conductive anti-corrosion treatment
Power connectors options	Amphenol PL300 with HVIL Amphenol PL082 with HVIL Bus bar connection
Signals connector	8STA family (SOURIAU)

Ordering code logic

Port examples
Individually CAN settable

- Fuel Cell #1
- Fuel Cell #2
- Compressor inverter
- 400V_{DC} auxiliaries

Port examples
Individually CAN settable

- HV battery
- Ultracapacitors
- Trolley

Part number example :

DC	HV	L	P	D	S	LC				
1	2	3	4	5	6	7				
1 - Product family			2 - Voltage							
DC	HV-HV non-isolated DCDC converter									
3 - Package size			4 - Product line							
L	Large									
5 - Number of ports on side A			6 - Number of ports on side B							
S	Single									
D	Dual									
T	Triple									
Q	Quadruple									
P	Penta									
Sx	Six									
H	Hepta (seven)									
O	Octo (eight)									
7 - Cooling option										
LC	Liquid cooling									
FA	Forced air
